TASK FORCE REPORT WELL RECEIVED

Completed on March 2, the 231-page assessment of the Canada-United States Trade Agreement prepared by 15 graduating seniors in the International Studies Program in the Jackson School was well-received. Mr. William Abnett, formerly a Foreign Service Officer appointed to the Executive Office of President Reagan and currently Executive Director of the Washington State China Relations Council (representing more than 100 businesses and organizations), examined the individual reports and the students consensual recommendations.

To finalize the report, the students studied the history of Canada-United States trading relations, the possible impact of the FTA on Canadian culture, investment potentials, financial services reforms, sectoral changes in technology, forest industries, agriculture, and energy, and the dispute settlement mechanism.

REGIONAL RESPONSE TO FREE TRADE AGREEMENT

The number of businesses in Washington State and in British Columbia who are responding to the newly enacted Canada-U.S. Free Trade Agreement is steadily increasing. A profusion of questions arise as people try to initiate business or to expand business across the international border.

Mr. Donald Lorentz, Director for the Business and Market Development Group of the Washington State Department of Trade and Economic Development addressed many of these questions on Tuesday, March 28. He was the speaker for a luncheon, sponsored by the Canadian Society of the Northwest and the Canadian Studies Center, University of Washington, at the Harbor Club in Seattle. The theme of his speech was "Washington State Rises to the Challenge of the U.S.-Canada Free Trade Agreement."

Mr. Lorentz outlined the nature of the State’s response to the recent Free Trade Agreement, and described the activities of the Joint Committee of the Pacific Northwest Economic Partnership between British Columbia and Washington State. Clearly he felt optimistic that mutual benefits were to be achieved through the partnership, and hoped that it could be expanded to include Alberta and other Pacific Northwest States in the near future.
