RESEARCH PROJECT

Research on Global Energy and Environmental Issues

07/2020-08/2020

Team Leader | *Supervisor: Prof. Carolyn Kissane, New York University*

- ◆ Explored the impact of the Mauritius oil spill on the local ecological environment, and investigated how and why relevant countries, including Japan, India and France, have reacted differently.
- ◆ Took a mixed methodology of qualitative and quantitative research based on news articles, official reports and academic journals.
- ◆ Employed the comparative approach to examine the similarities and differences of the reactions from the three countries.
- ◆ Conceptualized how colonial legacy and immigration are key factors to determine the behavior of government as international actor in response to global environmental incidents.
