I've been dealing with a food issue for a long time that is not being addressed by GEO so I'm hoping you can help. My salad I get is always no good, I've talked to POD officers who get tired of calling the Kitchen all the time and they don't want to get involved, so they recommended sending this grievance. If I need to talk to someone else please let me know who that person is. Please and Thank you.

We receive food deliveries weekly, and rotate stock first in first out. We should not or will not serve food items that are bad. I will keep an eye on this. Thanks
