Hello Gentlemen,

Now that I oversee the Spokane Station, I was wondering if you guys have any information on the 2 individuals on the target sheets attached. We will be looking to collect as much information on these guys so we can scoop them up. If you have another place I can send this type of information so it gets a further dissemination, please let me know. If you want to disseminate these sheets to others so we can gain information, please do so. All we are looking for at this time is just information. Thank you

Respectfully,
