Hi Vince,

We actually signed up the BP on our system and they look at everything themselves.

It was quite easy when we set up all the accounts. We made sure that Aaron forwarded us the people that need to review and add to the system.

Trying to get up there Thursday to find my water bottle with Kim and look at that nice coin you might have gotten for me 😊

Regards,

Chief Deputy Laura Wright US

Hi,

I have a request to help out another OPSG partner. How is OCSO sharing the LPR information that you capture with the OPSG procured LPRs? I think they'd like to copy your process.

R/S,

Vince

Subject: OPSG LPRs

Good Morning Vince,

I was wondering if you could do me a favor and reach out to Okanogan County and ask them how they are sharing the LPR information that they capture with their OPSG procured LPRs. There is an OPSG partner on the west side of the state that is looking into the purchase of LPRs and they want to know how they fulfill the requirement of getting the info to us or a state fusion center.

Thanks,

DAVID M. OROZCO
