MARCH 6-13, 2008

ABOUT

The governments of Canada, the United States of America and Japan, in cooperation with the State and Provincial governments of Washington, Oregon, British Columbia, Alberta, Saskatchewan and Manitoba, in partnership with their respective health technology communities, are pleased to announce an exciting networking opportunity.

The TriNation Health Tech Forum 2008 will provide a platform for export development and facilitate relationship building, research collaboration and business development between the health technology communities in Japan, the Pacific Northwest and Western Canada.
